

## Cycle Boat Checklist and To Do List

- While on the bikes we sell you on bar hopping, with the cycle boat it is a party boat with the potential to visit 1 bar depending on dock space.
- Print out waiver at home and bring with you for your group to sign as they arrive. Make sure they date it correctly. Commonly the first person fills out the date in the correct month/day/year format and others will just draw an arrow down thru all the boxes. We need for every person to fill it in when they sign. Please remind everyone as they sign.
- While the Port Complex does have a ton of free parking, we encourage our patrons to be safe and use an Uber or Lyft.
- Arrive early, we ask that everyone be ready to go 20 minutes before the start of your tour because the goal is that your start time is the latest we leave.
- Save yourself a ton of time by forwarding the confirmation email to your group so you don't have to say it over and over and no one can say you didn't tell me this or that.
- Tell the people who are always late to arrive earlier so they do not hold the group up
- Decorate for the occasion (see blog entry about decorating for ideas and rules)
- THE MOST IMPORTANT THING is use the bathroom ahead of time regardless of if you want to go or not. The public bathrooms are in the terminal by all the restaurants that you pass from the parking lot to where the tour begins and ends on the river side of the Port of Rochester Facility by the gift shop. The gift shop does not have public bathrooms
- Bring 1 cooler and ice, the boat only has room for one-32 can cooler
- Make sure everyone knows to bring CANS, remember 3-12oz can of beer, wine, cider, sparkling seltzer or mikes hard lemonade type drinks per person
- Bring food and snacks. People tend to eat chips and dips and cookies/brownies/sweets
- Don't forget the water in the cooler (it doesn't count towards alcohol limit)
- Find out who has Pandora/Spotify Premium so you can avoid commercials and have them by the DJ from our blueooth speaker
- Dress for the weather, bring sunscreen. The boat does have a canopy over 80% of it
- Wear sneakers, exposed toes are dangerous and we want to keep you safe
- Tell everyone to bring cash to pay you back as well as to tip the first mate and captain.
- We take all the group photos on the organizers phone so make sure you have plenty of battery and memory so we can snap away and capture the memories.
- Start thinking about what you want to do after your tour. The Port Complex has a number of different bars and restaurants to pick between. Jetty at the Port, California Rollin, Abbotts Ice Cream and Margios Diner

**Did we mention USE THE BATHROOM Before Your Tour**
